

EFT Institute, Level III

October 2-4, 2009

EFT mastery!

A new **EFT Institute, Level III** with Les Greenberg, Ph.D. will be held in Toronto's beautiful Harbourfront District from October 2-4, 2009.

Expert case consultation is the primary focus of the **Level III** Institute. The benefit is a significant boost in confidence with the EFT process.

Each participant will have the opportunity for at least one comprehensive case consultation. The consultations are an interactive group process, focused around the audio or video recordings of one or more sessions.

Consultations emphasize case formulation, marker identification, focus development, and the full spectrum of emotional interventions. All management issues will be discussed from within the EFT framework.

Some experiential work with supervision (as in Level I & Level II) *may* take also place, depending on the requests of the participants.

Level III will provide you with a privileged sense of mastery of EFT.

Accreditation

The Applied Psychology Institute is approved by the Canadian Psychological Association to offer continuing education for psychologists. API maintains responsibility for the program. **Level III** is approved for **18.0 Continuing Education Units**.
